THE CHALLENGE

A niche beauty category with no proven lead-gen playbook.

The Korean beauty category sits in a curious position: high awareness among a passionate niche, but no established lead-generation funnel for the brand. Most competitors run pure e-commerce — there was no template to copy.

The brief was sharper: capture qualified, intent-driven leads at a tight cost per lead. Volume mattered, but quality mattered more. Each lead had to be someone genuinely interested, not just a curious click.

Two channels, one job: find the right people, fast.

Meta Lead Forms

Native Meta Lead Forms with precise audience targeting — collecting qualified leads directly inside the platform, no landing-page friction. 692 leads at €1.55 CPL across the engagement window.

Meta Traffic support

A complementary Traffic campaign drove 5,848 Landing Page Views at €0.16 per view — feeding cold prospects into the funnel and warming retargeting audiences for the Leads campaign.

Google Search prospecting

A targeted Search campaign captured high-intent queries with 9,337 clicks at €0.32 CPC and an 11.17% CTR — far above category benchmarks for awareness-stage prospects.
